

R C Lalith Kumar

+918147762004 | rcalith.kumar@gmail.com | [GitHub](#) | [Linkedin](#)

Computer Science Engineering student at AMC Engineering College with a CGPA of 9.35/10. Skilled in Python, Java, C, Database Management Systems, and AI-powered application development. Passionate about building scalable software solutions, solving real-world problems, and continuously learning emerging technologies.

EDUCATION

AMC Engineering College, Bengaluru

Bachelor of Engineering in Computer Science & Engineering

2023 – Present | CGPA: 9.35

St. Joseph's Boys High School, Bengaluru

Higher Secondary Education (PCMC)

2021 – 2023 | 95%

Outreach School, Bengaluru

Secondary Education (SSLC)

2020 – 2021 | 95%

PROJECTS

Prism — Local AI Digital Twin

Tech Stack: Python, Ollama, LLMs, React.js

- Built a local AI assistant using Ollama and locally hosted LLMs for privacy-focused conversational AI.
- Designed a responsive interface and optimized workflows for low-latency real-time interactions.

NexaFlow AI — Enterprise Cloud Chatbot Platform

Tech Stack: React.js, Node.js, MongoDB, Cloud Deployment

- Developed an enterprise-grade chatbot for CRM and customer support automation.
- Implemented authentication, voice input, and real-time communication with cloud deployment.

Biometric Driven Digital Watermarking System

Tech Stack: Python, Image Processing, Biometrics

- Developed a secure digital watermarking system integrated with biometric authentication.
- Enhanced multimedia ownership verification and data authenticity through biometric validation.

Radar System Using Ultrasonic Sensor

Tech Stack: Arduino Uno, Embedded C, HC-SR04 Ultrasonic Sensor, Servo Motor, Processing IDE

- Developed a radar-based obstacle detection system using ultrasonic sensing and servo-controlled scanning.
- Created a real-time radar visualization interface with LED and buzzer alerts for obstacle proximity detection.

CERTIFICATIONS

- [Introduction to Machine Learning – NPTEL Elite \(70%\)](#) | Topper - 5%
- [Compiler Design – NPTEL Elite \(69%\)](#)

TECHNICAL SKILLS

Programming: C, C++, Java, Python, JavaScript

Web Development: HTML, CSS, React.js, Node.js, REST APIs

Databases: PostgreSQL, MySQL, MongoDB

AI & Cloud: Ollama, LLMs, AI Chatbot Development, Cloud Deployment

Developer Tools: Git, GitHub, VS Code

Core Qualities: Analytical Thinker, Fast Learner, Problem Solver, Continuous Learner

ACHIEVEMENTS

- Recipient of the Best Student Award for outstanding academic and overall performance.
- Proficiency Awards in Physics, Chemistry, Mathematics, and Computer Science .
- Qualified for the City Finals of the Times NIE National Aptitude Challenge (2017).
