Final year CSE student at AMC Engineering College (CGPA: 9.28/10) seeking full-time/internship opportunities in AI/ML engineering and full-stack development. Experienced building local LLM applications, AI-powered chatbots, and production web systems. Available for immediate joining.

EDUCATION

AMC Engineering College, Bengaluru

Bachelor of Engineering in Computer Science & Engineering

2023 – Present | CGPA: 9.28

St. Joseph's Boys High School, Bengaluru

Higher Secondary Education (PCMC)

2021 – 2023 | 95%

Outreach School, Bengaluru

Secondary Education (SSLC)

2020 – 2021 | 95%

PROJECTS

Prism — Local AI Digital Twin | In Development

Tech Stack: Python, Ollama, Mistral, React.js, REST APIs

- Built a local AI assistant using Ollama and locally hosted LLMs for privacy-focused conversational AI.
- Designed a responsive interface and optimized workflows for low-latency real-time interactions.

NexaFlow AI — AI Customer Support Chatbot | [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, Groq LLM API, Render, Vercel

- Built an AI chatbot with LLM-based intent classification and persona-specific response generation.
- Added automatic ticket creation, chat history logging, and an analytics dashboard with voice input.

Biometric Driven Digital Watermarking System | [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, TypeScript, Vite, Tailwind CSS

- Built a client-side system binding documents to a fingerprint via minutiae extraction and Fuzzy Vault cryptography.
- Implemented invisible zero-width-character steganography with content-hash based tamper detection.

BakersBox — Invoice Generation Web App | [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Vite, Tailwind CSS, React Router, react-to-print

- Built dual-flow bakery billing app with dynamic item selection and auto-generated invoice numbers.
- Implemented a print-optimized invoice layout with react-to-print for one-click, branded PDF export.

CERTIFICATIONS

- [Introduction to Machine Learning – NPTEL Elite \(70%\)](#) | [Topper - Top 5%](#)
- [Compiler Design – NPTEL Elite \(69%\)](#)

TECHNICAL SKILLS

Programming Languages: C, Java, Python, JavaScript

Web Development: HTML, CSS, React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB

AI & Cloud: Ollama, Mistral, LLMs

Deployment: Vercel, Render

Developer Tools: Git, GitHub, VS Code

Core Qualities: Problem Solving, Analytical Thinking, Team Collaboration, Communication

ACHIEVEMENTS

- Best Student Award for outstanding academic and overall performance.
- Proficiency Awards in Physics, Chemistry, Mathematics, and Computer Science.
- Qualified for the final round of Decodex coding competition.
